

SeriousWindows helps you to save money and save energy. Did you know that these windows are saving jobs too?

President Obama Highlights Green Jobs and SeriousWindows Energy-Efficient Windows

“ **Serious Materials** just reopened a manufacturing plant outside of Pittsburgh. Last year, that factory was shuttered and more than one hundred jobs were lost. The town was devastated.

Today, that factory is **whirring back to life**, and Serious Materials is **rehiring** the folks who lost their jobs. And these workers will now have a **new mission**: producing some of the **most energy-efficient windows in the world.**”

- President Barack Obama, March 23, 2009

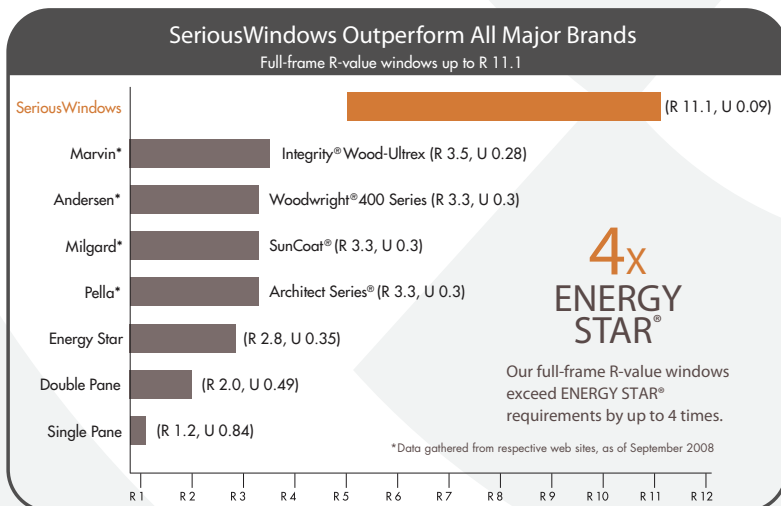

SeriousWindows™ SAVES MORE ENERGY THAN ANY OTHER WINDOW. PERIOD.

- Highest insulating **FULL-FRAME** R-value windows starting at R-3
- Reduces your heating & cooling costs by up to 50%*
- Blocks 99.5% UV rays vs. 84% standard dual-pane low-E windows

Available in fiberglass or insulated vinyl frames, and in a variety of pre-finished colors, all SeriousWindows and Doors are low maintenance and designed to enhance the beauty of your home and save you money throughout your home’s lifetime.
